|                         |           |                           |       |
|-------------------------|-----------|---------------------------|-------|
| Total Crime Incidents:  | 10,500    | Active Cases:             | 4,224 |
| Solved Cases:           | 5,763     | High-Risk Incidents:      | 1,397 |
| Repeat Offenders Count: | 600       | Crime Growth Rate (60d):  | -1.5% |
| Crime Severity Index:   | 56.54/100 | Investigation Solve Rate: | 54.9% |

## 2. Top District Crime Leaderboards

| District Name | Incident Count | Risk Score | Growth Rate | Severity Index |
|---------------|----------------|------------|-------------|----------------|
| Kalaburagi    | 777            | 53.2/100   | -20.0%      | 57.3/100       |
| Ballari       | 615            | 53.2/100   | -24.44%     | 58.5/100       |
| Tumakuru      | 344            | 51.5/100   | 35.29%      | 59.7/100       |
| Belagavi      | 743            | 48.7/100   | -22.95%     | 55.5/100       |
| Davanagere    | 439            | 48.2/100   | 2.86%       | 54.7/100       |

3. Future Volume Projections

| Target District  | Crime Category  | Current Monthly Avg | Next Month Projection | Predicted Trend |
|------------------|-----------------|---------------------|-----------------------|-----------------|
| Bengaluru Urban  | Property Crimes | 29.9                | 1.6                   | DECREASE        |
| Bengaluru Urban  | Cyber Crimes    | 27.7                | 1.4                   | DECREASE        |
| Mysuru           | Property Crimes | 10.5                | 0.5                   | DECREASE        |
| Mysuru           | Cyber Crimes    | 9.0                 | 0.7                   | DECREASE        |
| Hubballi-Dharwad | Property Crimes | 8.9                 | 0.5                   | DECREASE        |

## 4. Strategic Intelligence Recommendations

### 1. Cybercrime Prevention Campaign:

Digital scams and online fraud have risen. Launch public awareness campaigns targeting vulnerable demographics (senior citizens and students) regarding phishing links and lottery frauds, and expand the cyber cell capacity.

### 2. Targeted Hotspot Patrols:

High concentrations of incidents detected in Bengaluru Urban district, specifically under the jurisdiction of Koramangala PS, Whitefield PS. Increase visible street patrolling and set up CCTV checkpoints in these sectors.

### 3. Resource Optimization:

Weekly crime levels remain uniform. Maintain standard watch rotations but shift non-critical administration staff to support peak-hour evening patrol shifts.

### 4. Recidivism Monitoring:

Over 20% of incidents involve suspects with active criminal records. Implement a coordinated repeat offender management program in collaboration with local courts to expedite trials and monitor bail conditions.

### 5. Night Watch Operations:

Significant crime density identified between 22
